### Individual Insurance Market Protections

**Pre-existing conditions protections:** Only current federal protections apply in Utah.

**Short-term, limited-duration and association health plans:** Utah does not place any stricter limitations than current federal standards on short-term, limited-duration health plans. Utah requires that an association form for a purpose other than offering insurance and be in existence for a minimum of five years before offering coverage. Self-funded association health plans must satisfy the same licensure and financial standards as commercial insurers.

**Reinsurance:** Utah has not yet sought a section 1332 waiver to establish a reinsurance program.

\*Although stated eligibility level for parents of dependent children would not warrant an "A," state has expanded Medicaid to enable individuals previously ineligible for Medicaid to become Medicaid eligible up to 138% eligibility FPL and, therefore, earns an "A."
